

ZoomInfo Chrome Extension

Quick start guide

1. Install the extension from the Chrome Web Store.
2. Sign in with your ZoomInfo credentials (SSO supported).
3. Pin the extension so the icon stays visible in the toolbar.
4. Open any company website or LinkedIn profile.
5. Click the icon to view contacts, and export to your CRM.

Supported surfaces

LinkedIn and Sales Navigator, company websites, Gmail, Outlook on the web, and most ATS and CRM record pages.

Credits

Viewing a contact does not spend a credit. Exporting a phone number or email to your CRM does. Usage is visible in Admin.
